

The bearing (N 30° 40' W) of the southwesterly line of First Street as described in deed to Frank Martin and Louis Berg Martin, recorded in Book 2332 Official Records at page 502, was used as basis of bearings for this survey. All distances and dimensions are shown in feet and decimals thereof. Lots and Blocks are as shown on map entitled "City of San Jose, copied from the original Map drawn by Sherman Day, Civil Engineer, recorded in Book 4 of Maps at pages 72 and 73.

I, Mark E. Thomas, hereby certify that I am a Registered Civil Engineer of the State of California, that this map correctly represents a survey made under my supervision in January, 1956 for Harold K. Stern, that the survey is true and complete as shown, that all monuments shown actually exist and their positions are correctly shown, and that said monuments are sufficient to enable the survey to be retraced.

I also certify that the survey correctly shows the relation of the buildings and other structures to the property lines of the land indicated hereon, and that there is no encroachment or overlap on the adjoining property of buildings or structures located on said land, nor encroachment of adjoining buildings or structures onto said land except as shown and described on said survey.
