Working Artists Autism Post:

Male Easyfluff version – Part 2

Below you'll find the top 3192 artists using the same prompt to maybe help come up with ideas

***

Note that while I've prompted "Anthro male" a lot of these artists are predominantly female, and that bleeds through a bit, I've also noticed a couple of really samey images here and there which I believe indicates that artist has little to no effect on the model.

you can force most (but not all) of these artists to drastically different results if you prompt things like "kemono", "realistic", "female", "young", etc. Maybe you'll get better results on some by negative prompting "female" and "breasts" too. Play around with it.

***

Please read the explanatory memorandum to help interpret these results here:

https://www.mediafire.com/file/ymxqexl6r3nl68s/Working_artists_explanatory_memorandum.pdf/file

The other parts in this series are available here:

https://www.mediafire.com/folder/4ikccf2kpjh1i/Male+Easyfluff+-+28725+artists

***

Here's a link to my random garbage folder:

https://www.mediafire.com/folder/cvm1f2c13mocj/Random+shit

In here you can find the wildcard file used to generate these with the full list of artists. It goes all the way down to any artist with a tag count above 13. Also some other assorted shit I've made like some hand picked artist combos using the 4 artist combo anon's template and my previous artist compilations.

Use these resources however you want, but please be kind to eachother
